MICUS ALARM AND CONTROL SYSTEM (MACS)
WAVESAT SSPA MONITOR

Wavesat SSPA high power amplifier is a high quality, highly reliable and cost effective RF amplifier designed for the satcom applications. *Micus Alarm and Control System (MACS)* provides automated alarm monitoring and remote control access to any number of SSPAs from one or more computer workstations on your computer network.

MACS Wavesat SSPA equipment module supports all remote control and monitoring features offered by the Wavesat SSPAs. These features include:

- Remote access via computer network
- Programmable status polling intervals
- SSPA front panel mimic
- Mute and alarm reset buttons
- Gain and threshold control sliders
- Power monitoring
- Temperature monitoring
- Status monitoring
- Refresh button
- SSPA communication alarm
- Simple Network Management Protocol (SNMP) access to Wavesat SSPA units

MACS Wavesat SSPA equipment module is immediately available from Micus Real Time Software Inc.
